# Engineering Excellence

complete solutions for the aerospace and motorsport industries

More and more decision makers in the worldwide aviation, motorsport and medical industries are turning to Trac Precision Engineering Ltd to meet their GSE/Tooling and instrument needs. There is good reason for that too - uncompromising commitment to quality and superior levels of service and support, have earned Trac Precision Engineering the reputation as a leader in their field.

The company designs and manufactures tooling, components and equipment including all types of jigs, fixtures special purpose machines and prototype components. A high level of design expertise includes particular experience of electronic interfacing compatibility. Throughout our project orientated approach we are able to supply solutions from conceptual design through manufacture to final commissioning, together with after sales service and customer care. Our full business portfolio of design, manufacture, assembly and testing is controlled at our purpose built facility in Derby. Trac Precision Engineering has wide ranging experience in the supply of tooling and equipment that meets project requirements of varying size and complexity. Integrating all aspects of our management team with focused knowledge enables us to control and address all issues, so that projects are supplied on time and at budget, whilst high quality workmanship is maintained. The company's Quality Management System meets the requirements of ISO 9001 & AS9100 and the following organisations: **GE Engine Services - approved,** **Rolls Royce - approved.**

Qualified personnel are the capital of any company - after all, they represent the key to a high quality service. Personnel development is a priority and enables us to retain key people with the skills necessary to keep us at the leading edge of our industry. The training and development of individual talents, to reflect the changing face of industry, is crucial for our business to grow, to work directly with our customers and to make sound decisions based on business and industry knowledge. The company is organised to serve its customers with optimum efficiency. Trac Precision Engineering and associated business partners focus on our clients interests throughout the world.

## The Trac Group
